Dear Employer,

I was pleased to learn of your need for additional assistance. With solid experience and education in my first two years in the Faculty of Architecture, I would like to gain work experience outside from school. I am an international student from China, I work hard when there is high expectation and I have a good understanding of what is needed to be done on time. I have six months of work experience in Wanda Cinema in Wuhan, China. I can learn new things very well and thorough so that I could build my quality of work. I learned how to work in group with other people through my former working experience and school projects. Now I am prepared in getting a part time job.

Sincerely,

YUHAO(Benson) ZOU
